

SONIA ZAVALETA TOUKKARI

SOFTWARE TESTING & UX DESIGN

Are you looking for a project ally that loves testing, UX Design and app development?

I specialise in UX/UI Design, manual testing and Devops with a focus on delivering seamless app experiences. I love collaborating with senior developers to learn and grow every day. Check my [portfolio](#) see some of my work in action.

TESTING TOOLS

Testflight, AWS Device Farm, Wordpress, iOS and Android devices, Sandbox (for IAP), Google Play Console, Wrike, Jira

DESIGN SKILLS

Figma, Whimsical, Canva, AI tools

OTHER HOBBIES

Swimming, cycling, running, triathlon

LANGUAGES

Spanish C2, English C2, Finnish B1

EXPERIENCE

Manual tester & UX designer

SuperApp Oy - Helsinki Finland May 2020 - present

I specialise in identifying bugs, defects, and usability issues in iOS and Android apps, ensuring products meet design and functionality standards.

I craft intuitive, visually appealing interfaces that enhance user experience. For example, app, flows, prototypes and publishing materials for stores.

While my focus is on UX/UI design and manual testing, I use CSS to style pre-made components and create simple, visually appealing frontend elements.

Achievements:

Successfully delivered 20+ apps meeting client requirements, involved in planning (UX design), frontend, testing, and publication phases of the project.

EDUCATION

Aalborg University

2015-2017 Erasmus Mundus Scholarship
