DESIGN SKILLS

Figma, Canva, CapCut, Whimsical

OTHER HOBBIES

Triathlon and its individual sports

LANGUAGES

Spanish C2, English C2, Finnish B1

PROFESSIONAL EXPERIENCE

Manual tester & Product designer

SuperApp Oy - Helsinki Finland   05. 2020 - 01.2025

I specialized in identifying bugs, defects, and usability issues in iOS and Android apps, ensuring products meet design and functionality standards.

I crafted intuitive, visually appealing interfaces that improved user experience, such as app flows, prototypes, and publishing materials for app stores.

While my primary focus was design and testing, I also utilized CSS to style pre-existing components and develop simple, appealing frontend elements.

PROFESSIONAL ACHIEVEMENTS:

Successfully delivered 20+ apps meeting client requirements.

PERSONAL ACHIEVEMENTS:

I built my personal brand "**SonitaSV**" showcasing my skills through my **Youtube Channel**, **website**, my first ever Android app **SonitaSV.App**, and initial **digital products**. It has been a lot of self learning and I feel so proud of myself!

EDUCATION

Msc Culture, Communications and Globalisation

Aalborg University 2015-2017

Erasmus Mundus Scholarship
